

[Fraunhofer Cluster of Excellence Integrated Energy Systems CINES](#)  
[Dr. Jan Frederik Braun](#)

**About**

Dr Jan Frederik Braun is Head of Hydrogen Cooperation (MENA region) at Fraunhofer CINES. As a researcher, he is involved in various CINES projects with stakeholders from industry and politics, which aim to accelerate the rapid and international market deployment of hydrogen technologies along the value chain.

Dr. Braun analyses strategic and regulatory developments in Europe and the MENA region, including hydrogen policies, technological opportunities, regulatory challenges, and business cases. In this capacity, Dr. Braun contributes to our efforts in developing cooperation opportunities in international networks and initiatives regarding clean hydrogen.

Work focus:

- Analysis of hydrogen economics and regulatory developments
- Research and development of hydrogen technologies along the value chain
- Writing of strategic-economic publications on hydrogen applications and markets
- Data analysis and visualisation
- Publication coordination and design
